The Goodwill Community Foundation (GCF®) provides Internet sites for employment, education, and life enrichment. We use this site heavily at our Public Computer Centers for self-guided technical, ESL, academic and employment training.

[InternetSafety101.org](http://InternetSafety101.org)

Enough Is Enough™ understands that Internet safety is a shared responsibility between the public, the Internet industry, and the legal community. However, parents remain the 'first line of defense' in protecting their children against Internet safety dangers.

[StopThinkConnect.org](http://StopThinkConnect.org)

STOP. THINK. CONNECT.™ is the global cybersecurity awareness campaign to help all digital citizens stay safer and more secure online, created by a coalition of private companies, non-profits and government organizations with leadership provided by the National Cyber Security Alliance (NCSA) and the Anti-Phishing Working Group (APWG).

[OnGuardOnline.gov](http://OnGuardOnline.gov)

OnGuardOnline.gov is the federal government's website to help you be safe, secure and responsible online. The Federal Trade Commission manages OnGuardOnline.gov, in partnership with Stop Think Connect, led by the Department of Homeland Security, and part of the National Initiative for Cybersecurity Education, led by the National Institute of Standards and Technology.

[NetSmartz.org](http://NetSmartz.org)

An interactive, educational program of the National Center for Missing & Exploited Children® (NCMEC) that provides age-appropriate resources to help teach children how to be safer on- and offline. The program is designed for children ages 5-17, parents and guardians, educators, and law enforcement.

[eff.org](http://eff.org)

The Electronic Frontier Foundation is the leading nonprofit organization defending civil liberties in the digital world. Founded in 1990, EFF champions user privacy, free expression, and innovation through impact litigation, policy analysis, grassroots activism, and technology development.

[LibraryFreedomProject.org](http://LibraryFreedomProject.org)

A partnership among librarians, technologists, attorneys, and privacy advocates which aims to address the problems of surveillance by making real the promise of intellectual freedom in libraries.
